

*'Being different, Belonging together'*

## **English Curriculum Statement**

**September 2016**

At Frances Olive Anderson Church of England Primary School, we teach English using the National Curriculum objectives for each age range. We plan together a one year cycle of work for each age range that covers the National Curriculum objectives and where appropriate, through the Cornerstones resources for long term curriculum planning.

### **Introduction**

English is one of the subjects of the National Curriculum. This guidance outlines the purpose, nature and management of the English taught in school. The school guidance for English reflects the consensus of opinion of the whole staff and has the full agreement of the Governing Body. The implementation of the guidance is the responsibility of the whole teaching staff.

### **Aims and Objectives of English**

The aims of English in our school are:

The overarching aim for English in the national curriculum is to promote high standards of language and literacy by equipping pupils with a strong command of the spoken and written word, and to develop their love of literature through widespread reading for enjoyment. The national curriculum for English aims to ensure that all pupils:

- read easily, fluently and with good understanding
- develop the habit of reading widely and often, for both pleasure and information
- acquire a wide vocabulary, an understanding of grammar and knowledge of linguistic conventions for reading, writing and spoken language
- appreciate our rich and varied literary heritage
- write clearly, accurately and coherently, adapting their language and style in and for a range of contexts, purposes and audiences
- use discussion in order to learn; they should be able to elaborate and explain clearly their understanding and ideas
- are competent in the arts of speaking and listening, making formal presentations, demonstrating to others and participating in debate.

*'Being different, Belonging together'*

## **Implementation**

### **Reading**

The programmes of study for reading at key stages 1 and 2 consist of two dimensions:

- Word reading
- Comprehension (both listening and reading).

It is essential that teaching focuses on developing pupils' competence in both dimensions; different kinds of teaching are needed for each. Reading also enables pupils both to acquire knowledge and to build on what they already know.

### **Phonics**

Phonics is taught in the Early Years foundation Stage and KS1. Phonics is taught using the Ruth Miskin Read Write Inc phonics programme. Children are assessed every six weeks and grouped according to their ability. Any children not meeting expectations are placed into 1:1 intervention programmes. If children in KS2 still require phonics input they will remain on the Read Write Inc programme until Year 5/6 where they will take part in the RWI Fresh start programme.

### **Guided Reading**

Guided Reading will take place outside the Literacy Session. Each group of children will work with their teacher or teaching assistant once a week at KS1 depending on the perceived needs of the children concerned. In KS2 the children will have a Guided Reading session once a fortnight and will work with their teacher or teaching assistant. Records of books read and children's progress will be recorded by the teacher.

### **Writing**

The programmes of study for writing at key stages 1 and 2 are constructed similarly to those for reading:

- transcription (spelling and handwriting)
- composition (articulating ideas and structuring them in speech and writing).

It is essential that teaching develops pupils' competence in these two dimensions. In addition, pupils should be taught how to plan, revise and evaluate their writing. These aspects of writing have been incorporated into the programmes of study for composition.

Teachers will follow units of learning linked to the Cornerstones curriculum to ensure a good coverage of different genres. Teachers follow the National Curriculum expectation and teach to the needs of their children ensuring expectations are high.

Each term a wow write day will be taught allowing children to revisit different genres taught across the year ensuring they are retaining skills taught. Work will be displayed on the Champion Writers display in the hall showing progression across the year groups.

### **Spelling**

Once children have finished the Read Write Inc Phonics programme they will be taught spelling using Read Write Inc Spelling. This teaches the expectations of the National Curriculum in daily 20 minute sessions. Children record and log spellings they need to practise and learn. Children are also given a weekly spelling test (words to learn) based on the National Curriculum spelling lists for each year group.

*'Being different, Belonging together'*

## Grammar

Within Key Stage 1 the requirements of the national curriculum are through the Read Write inc phonics programme. Once children have finished this they will move onto the active grammar programme. Children are taught Grammar specific terminology in a 15 minute starter to the normal English session. Children are given time to recall and learn using flash cards and images related to Grammar terminology, Read and Respond and Create and Learn, where children practise and consolidate learning. This is then linked to normal English sessions and objectives.

## Planning

The school's English Co-ordinator will take overall responsibility for ensuring effective planning and consistency of approach by teachers in accordance with the National Curriculum. Medium term planning is mapped out in units linked wherever possible to cornerstone topics. Short term weekly planning is carried out by individual teachers.

Planning will ensure that in addition to the requirements of the English Session there are frequent and regular opportunities for:

- ❖ Extended writing, which will be based on and will develop further skills covered in the English Session and which will include both fiction and non-fiction in order to facilitate children's ability to develop as independent writers.
- ❖ Extra reading activities, which may take the form of Guided Reading or individual readers. Children will also be given the opportunity to change their home/school reading books. Children should also be read to from a class book.
- ❖ Handwriting development.
- ❖ Homework – activities given to consolidate work done within class.

In the Foundation Stage children are taught in line with the Revised EYFS Curriculum. English is part of the Prime Area Communication and Language and also the specific area literacy. FS teachers constantly observe and assess children's progress according to the Foundation Stage Early Learning Goals.

## Display

We recognise the important role display has in the teaching and learning of English by having English work displayed in the school. Every class has a Literacy board which displays targets, key words, success criteria and anything related to the genre being taught. Displays will also include examples of work that have met specific targets and example of success criteria. Key Vocabulary/terminology relating to Phonics and Spelling, Punctuation and Grammar will also displayed in all areas where sessions are being taught. Teachers are also encouraged to have easily accessible resources such as thesaurus, dictionaries, sound charts etc. These all provide visual support for the children's Literacy.

## Time allocation

We recognise that English is a core subject within the National Curriculum. There are 5 allocated Literacy Sessions per week. There are also one-and-a-half-hours for provision of the wider English curriculum (including Extended Writing, handwriting and reading).

## Equal Opportunities

We recognise that there are children of widely different abilities in all classes and we ensure that we provide suitable learning opportunities for all children by matching the challenge of the task to the ability of the child. We achieve this in a variety of ways by:

- setting common tasks which are open-ended and can have a variety of responses;
- setting tasks of increasing difficulty (we do not expect all children to complete all tasks);
- grouping children by ability in the room and setting different tasks for each ability group;
- providing resources of different complexity, matched to the ability of the child;

### *'Being different, Belonging together'*

- using classroom assistants to support the work of individual children or groups of children.
- We teach English to all children, whatever their ability. English forms part of the school curriculum guidance to provide a broad and balanced education for all children. We provide learning opportunities that are matched to the needs of children with learning difficulties. Our work in English takes into account the targets set in the children's pupil profiles on our electronic tracking system. Children working below National Curriculum levels may be assessed using PIVATS scales.

## **Assessment**

Marking will be carried out regularly and in accordance with the school's marking guidance.

In the short term, teachers will carry out continuous assessment of children's progress in all aspects of the English Curriculum and where appropriate this will be noted down on the English weekly planning sheets. Such assessment will be formative: progress with specific skills or objectives will be assessed with a view to informing the subsequent appropriate teaching and learning for the children.

On a termly basis children will be assessed in Reading and SPAG using Rising Stars tests. Teachers will be able to gain a reading age from these tests. A spelling age will also be gained using the Single word spelling test and children will compete a termly test based on the Read Write inc Spelling programme. These will feed into teacher assessment which will be recorded on EAZMAG 3 times a year.

Pupils are formally assessed in the standard assessment tasks in Year 2 to 6. Teachers make long term assessments towards the end of the school year, and they use these to assess progress against school and national targets. With the help of these long term assessments, teachers are able to set targets for the next school year and summarise the progress of each child before offering the opportunity to discuss it with the child's parents.

Within KS1 phonics is tracked using Read Write Inc Tracking sheets. These are updated every six weeks and are overseen by the English Lead. Children identified as needing extra support are placed in to 1:1 intervention programmes.

Year 1 children will take part in the Year 1 Screening test during the second half of the summer term. This will be reported to parents, the government and on raise online.

## **Resources**

The resources are the responsibility of English and will be reviewed and updated when necessary. The core reading scheme Oxford Reading Tree is used throughout the school - these are stored in central areas and accessed by the teachers and teaching assistants when books are changed. BFI films and teaching approaches are stored in the Teachers' resource room. Guided Reading books are available for KS1 and 2. All guided readers are banded. All free reading books are stored in the library and are reading age banded.

## **Monitoring and Review**

It is the responsibility of the English team to monitor the standards of children's work and the quality of teaching in English. The English Lead is also responsible for supporting colleagues in the teaching of English, for being informed about current developments in the subject and for providing a strategic lead and direction for the subject in the school. The English subject team gives the headteacher an annual summary report which evaluates strengths and weaknesses in the subject and indicates areas for further improvement. The English subject leader has specially-allocated time for fulfilling the vital task of reviewing samples of children's work and visiting classes to observe teaching in the subject.
