

Homework for Term One 2020-21

Your child will not be set any formal homework this term. However we do encourage you to read with your child regularly and practice times tables and number bonds. We will send topic ideas home, but again this is optional.

From half term we will be sending mathematic revision books home with each child from Year 1 upwards and your class teacher will direct you to the pages to be completed each week.

Please see below some useful websites for any home learning you may wish to do, but our priority is ensuring that the children are settled back into school, are enjoying their learning and that we can provide home learning for bubbles of children should we need to shut to any and isolate for the time as directed by Public Health.

We are also exploring the best way to hold Parent Consultations with you for this term.

Thank you for your understanding with this.
